**INDIA'S
GROWTH**

Banka BioLoo Limited

Investors Quarterly Update

31 December 2022

About the Company

Banka BioLoo Limited is a social impact organization that strives to save and improve lives by bringing innovation in the water, sanitation and hygiene (WaSH) facilities through research, design, partnerships, and education. We are a research-driven, award-winning enterprise engaged in developing innovative water, sanitation, and hygiene infrastructure and services across the nation. We are engaged in the WaSH ecosystem with three-pronged approach: Treatment, safe disposal of human waste, and recycle/ reuse of wastewater.

Combining science, sustainability, and social impact, to create an economic value for all our stakeholders and investors.

Installed around 20,000 bio-toilets across 22 states

300 million liters of water was recycled

2,000+ bio-tanks were installed in train coaches across India

20,000 bio-toilets monitored and serviced daily in train coaches

Grown from just 2 employees to 800+ today

1,500+ schools have bio-toilet blocks through CSR
